Giridih, Jharkhand

SUMMARY:

- Skilled in building responsive web apps using **React.js** and **Next.js** with clean, reusable components.
- Experienced in integrating REST APIs and managing UI state with tools like **Redux** and **Context API**.
- Proficient in modern styling using **Tailwind CSS** and optimizing frontend performance for a smooth user experience.

PROFESSIONAL EXPERIENCE:

WrapPixel   1/11/2023 - Present   (**1.5year**)
Frontend Developer

- Developed comprehensive dashboards and admin panel in **ReactJS, NextJs** along with frontend ui libraries like **MaterialUi** , **TailwindCSS** and **Bootstrap**.
- Architecting and implementing the frontend components of the admin **dashboard**, ensuring responsiveness, scalability, and cross-browser compatibility.

WORK EXPERIENCE:

- Developed dynamic, **responsive UIs** using React.js and Next.js with a strong focus on component design and client-side routing.
- Managed complex application state using **React Hooks**, **Context API**, and **Redux** for smooth user interactions and data flow.
- Implemented **RESTful APIs** with Express.js for efficient communication between the frontend and backend.
- Designed and built responsive user interfaces using React.js, HTML5, CSS3, and JavaScript ES6+.
- Familiarized with NoSQL database management, including schema design and performance optimization in MongoDB.
- Implemented user authentication and authorization with features like login, signup
- Engaged in continuous learning and self-improvement to stay updated with the latest technologies and best practices in MERN stack development.

RELEVANT PROJECTS:

Sync Lab EMS   🌐 https://synclabems.netlify.app/

- Highly interactive UI using **TailwindCss** and **ShadcnUI** as component library.
- Used **Redux toolkit** for state management and **redux toolkit query** for fetching and caching Api.
- Implemented authentication or authorization using **JWT token** in Express
- Handled realtime data using **MongoDB** as database

RentoPc   🌐 https://refurbished-laptops.vercel.app/

- Highly interactive UI using **TailwindCss** and **ShadcnUI** as component library.
- Used **contextApi** for state management and native fetch for fetching .
- Implemented authentication or authorization using **NextAuth**
- Handled realtime data using **MongoDB** as database

FoodOne   🌐 https://appvilla-service.netlify.app/

- FoodOne is a Restaurant booking webapp.
- Project built with **NextJs** , **TailwindCSS** and **MongoDB** database with typescript support.
- I built User Database with booking information in MonogoDB.
- Implemented login signup functionality or Authentication.
- Used axios library for handing apis on client side.

AppVilla   🌐 https://appvilla-service.netlify.app/

- Project built with **HTML5**, **CSS3**, **JavaScript** and **React** stack.
- I built **Accordion** Section with the help of React.
- Customized **SwiperJs** Library for highly interactive **Carousel**.
- Hamburger menu with the help of React.

Basic Sass   https://basic-sass.netlify.app/
🌐

- Project built with **HTML5**, **CSS3**, **JavaScript** and **React** stack.
- Modern 3d layout using **ParticleJs** library.
- I used **react router** for client side routing..
- I used **sticky navbar** to enhance user experience.

SKILLS:

- HTML5
- CSS3 (including preprocessors SASS)
- Bootstrap
- JavaScript (ES6+)
- AngularJs
- NextJs (JavaScript frameworks)
- NextJs
- NodeJs
- MongoDB

EDUCATION

- Self Taught (Google,Udemy,Youtube,Freecodecamp)
